2026

A collection of four Rally household appliances is displayed against a dark blue background. On the left is a red and black hand blender. In the upper center is a black electric fan. On the right is a black and silver mixer grinder with its jar and a smaller jar. At the bottom left is a white and silver steam iron. The central text "MAKING LIFE SMARTER & EASIER!" is overlaid on the appliances, with "with RALLY APPLIANCES" written below it.

MAKING
LIFE

Technical Advice

Ceiling Fan Selection

How to select your fan?

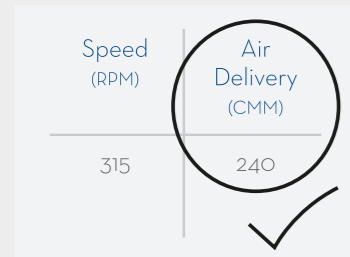

Sweep Size is referred to the entire diameter of a fan.

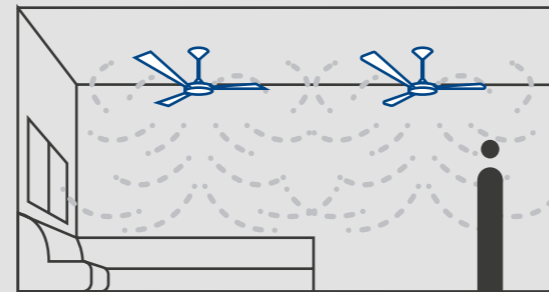

More fan blades do not give better air flow.

A four or five blade ceiling fan provides a more conventional, balanced look, whereas a fan with two or three blades possesses a modern and sleek style.

Higher RPM does not mean higher air flow. Air flow / Air delivery is the only point of comparison in selecting a ceiling fan.

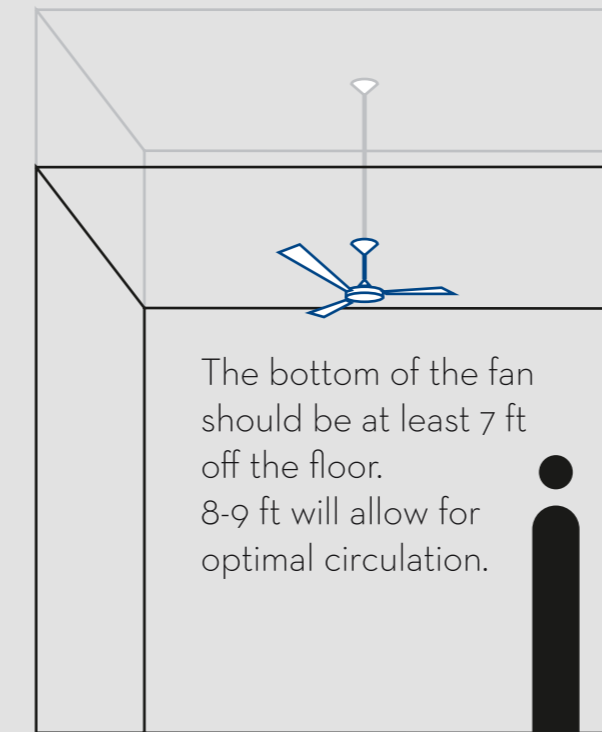

Sweep Size	Room Size
600 mm (24")	Small shop, cabin or Powder Room
750 mm (30")	6 X 10 ft
900 mm (36")	7 X 10 ft
1050 mm (42")	10 X 10 ft
1200 mm (48")	12 X 13 ft
1300 mm (52")	13 X 14 ft
1400 mm (56")	14 X 16 ft

For a much more larger room, consider using two fans to balance the air circulation in all parts.

Optimal Height

For ceilings that are taller than nine feet, add 6" to the downrod for every foot of height.

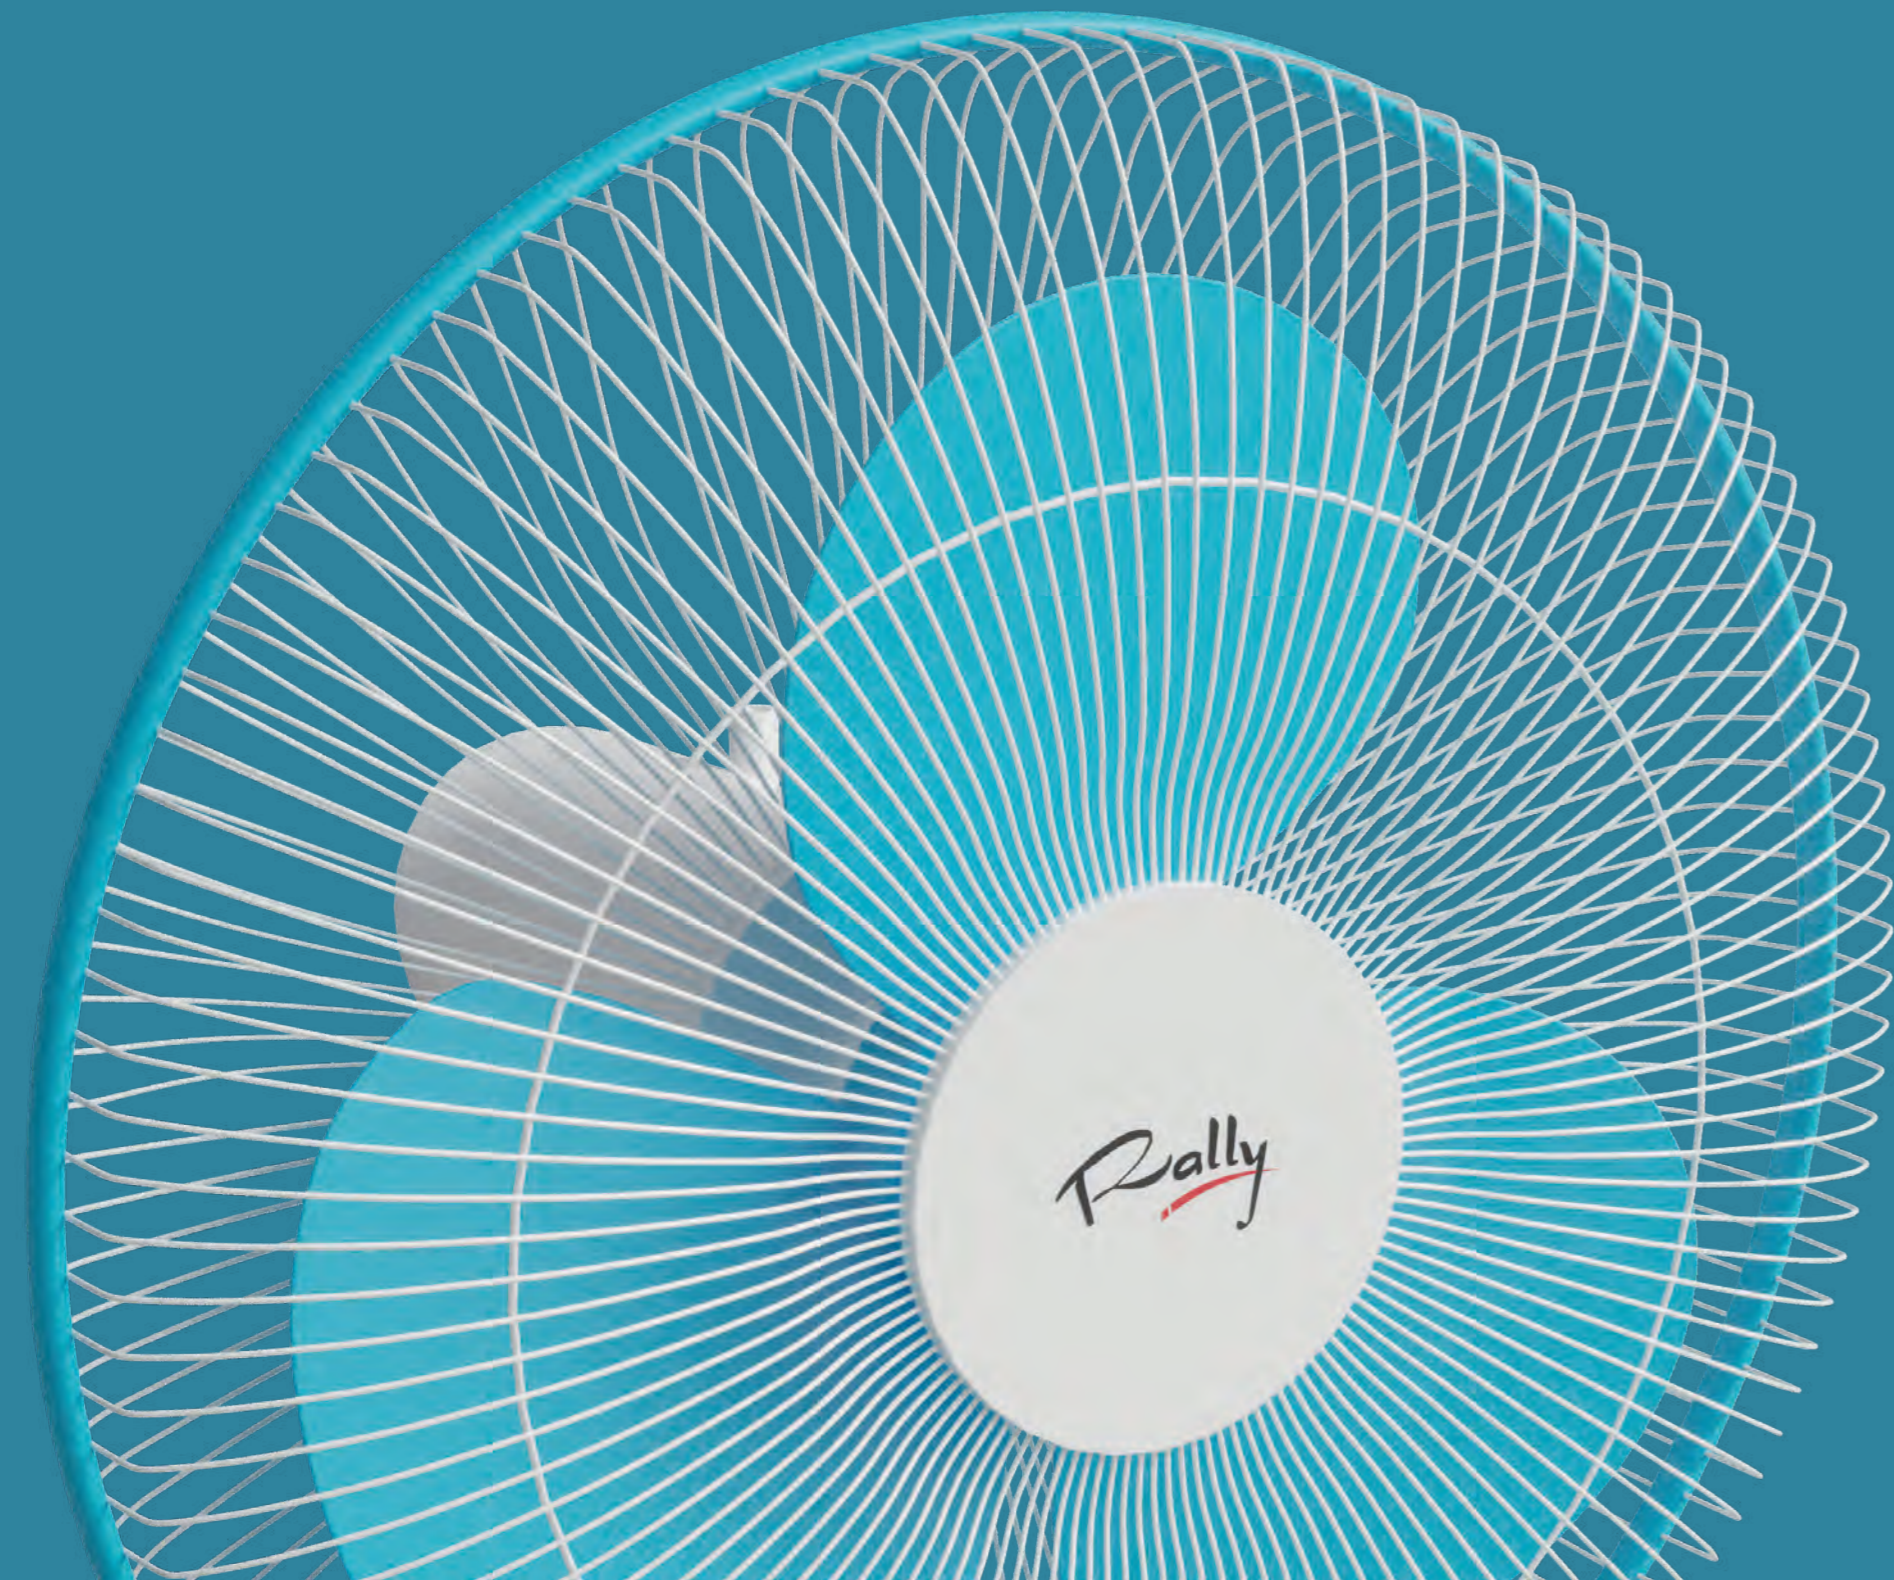

The more space between the ceiling and the blades, the better for air flow and circulation.

- 10 ft
- 9 ft
- 8 ft] Optimal height
- 7 ft
- 6 ft
- 5 ft
- 4 ft
- 3 ft
- 2 ft
- 1 ft
- 0 ft

Energy Efficiency

Lower electricity consumption means higher savings. The more stars there are, the more your savings are.

Things to consider when buying a geyser for your home!

1. Type of geyser

Storage OR Instant

2. Capacity of the geyser

Based on the household's hot water needs

3. Energy efficiency feature

A geyser that helps save on electricity bills

4. Heating technology

Tank or tankless, based on usage pattern

5. Safety

Features Auto cut-off, thermostat operation

6. Warranty

For assured reliability
